“This year we have reached 10 million visits”

10 million visits

This year we have reached 10 million visits since CF was created and that is all thanks to the wonderful community we have. From the CustomsForge staff we say: Thank you!

MAGFest

We will be returning to MAGFest 2019 (January 3-6th at the National Harbor, MD) so make sure to meet us if you are there.

Shoutout to Conway and Dallas who helps bring this together every year!

More information at MAGFest's official website: <https://super.magfest.org/>

Staff updates

We are proud to announce we have expanded our staff team and added a community manager and newsletter writer. His name is Dardo and he will be working with us to bring you the best newsletter possible.

Development Updates

If you do not have CustomsForge Song Manager (<http://cfmanager.com/>) we highly recommend you to download it to help manage and repair your CDLC. We've decided to change the way we release CFSM. For now on the beta branch will become the main branch therefore we can bring the latest features to you ASAP.

Ignition4 Development for our front-end is nearing completion. Our next goal is to work on the backend to tie everything together. The UI will be similar but you will definitely notice a lot of changes on the rewrite like a new CDLC Submission Form! After we complete the rewrite and upgrade the forums we can start working on new features!

We are also working on partnering with [RSPlaylist.com](https://rsplaylist.com) to integrate Ignition with twitch features.

More information about a dedicated twitch feature will be released in 2019.

*Thank you for reading the CustomsForge monthly newsletter.
CF's staff wishes you a Merry Christmas and remember:
keep on rockin'!*
